

## Looking for One Solution with Multiple Perks?

### We've got it all wrapped up

TransFirst is dedicated to helping our sales partners build the strongest relationships possible with their clients, and at the same time ensuring our partners are meeting the highest levels of compensation as quickly as possible.

To do that, TransFirst continues to develop Bundled Leasing offers, which tie multiple products together. This unique solution enables TransFirst to obtain the best lease funding factors and equipment costs, combined with a robust Gift & Loyalty solution, all with an intent to create a better product and service offering while producing the highest level of compensation for you.

Today, you can take advantage of a special terminal and gift card bundled package with two tiers for two different types of merchants. These packages offer:

### A Gift Card Starter Package and a Hypercom T4205

- Gift cards have proven to be one of the greatest retention tools
- The T4205 is a cutting-edge new product offering with a proprietary application to TransFirst. It is a compliment, low-cost terminal that can support the TransFirst gift card program.

With this program you can provide your merchants with an easy, cost-effective offering that brings a business into the credit card acceptance marketplace and kicks off their electronic marketing capabilities – all for a low 48-month lease payment.

### The 25 Gift Card Package and T4205:

- For a low monthly lease payment of \$24.95, TransFirst will provide funding of \$475.00 regardless of lease score or funding lease levels.

### The 100 Gift Card Package and T4205:

- For only \$10 more a month, the merchant can obtain a 100-card starter package.
- For \$34.95, TransFirst will provide funding of \$600.00 regardless of lease score or funding lease levels.
