

Come Out Ahead.

Tap into advanced technologies

TransAction Central is a Web-based centralized payment-processing system that offers comprehensive, flexible and user-friendly processing solutions for merchants of all sizes. This proprietary solution allows your customers to accept payments from multiple locations anywhere in the world, at any time – instantly networking all devices, including POS, e-commerce, software and wireless. Plus, with all the functionality of an electronic countertop terminal and the ability to process transactions online, TransAction Central enables any PC or wireless handheld device to be converted into a traditional POS terminal with fully integrated card swipe technology.

Transactions of all types, including e-check, ACH and recurring payments, can be entered over the counter, over the phone or over the Internet with this single, integrated system – and can be accessed in real-time, 24 hours a day, seven days a week via the Internet.

Capabilities include:

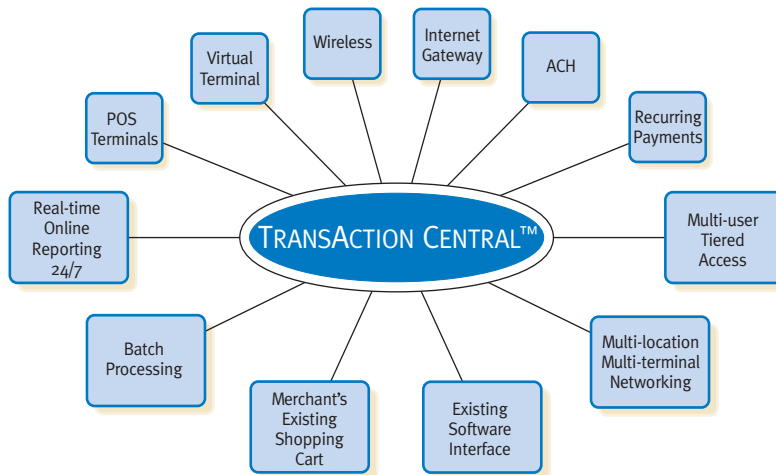

- Daily application status
- Residual ACH history
- Agent-level statements
- Accounts opened, activated and closed – current month
- Average ticket by portfolio
- Processing volume by hierarchy
- Automated merchant quotes
- Merchant fee and rate history
- Monthly summary reports
- Merchant HelpDesk history and notes
- POS equipment/software profiles
- Profitability statements
- Demographic reports
- Mailing labels

TransAction Central puts merchants in control

Administrative controls allow merchants to determine who can access various information and functions. Most importantly, they can select the features they want to implement now and easily add additional features as their business grows or their needs change.

TransAction Central helps you stand out

Not only does this innovative product with big-merchant functionality enable you to measurably grow your business by opening doors to previously untapped small- to mid-sized merchants, it's also customizable in look – enabling you to market TransAction Central under your own unique business label.
